

# Eu Yan Sang-SHUTCM TCM Elective 2017

Jointly organized by Eu Yan Sang Academy and Shanghai University of Traditional Chinese Medicine

## Course Description

The Eu Yan Sang-SHUTCM TCM Elective is a programme jointly developed by Eu Yan Sang Academy (EYSA) and Shanghai University of Traditional Chinese Medicine (SHUTCM). It is the first recognized structured Traditional Chinese Medicine (TCM) elective being offered to NUS Medical Students.

Being in the third year running, the objectives of this programme are to provide NUS Medical Students with an overview into the theory and practice of TCM as well as its role in integrative healthcare.

In this 4-week elective programme, participants are able to gain an appreciation of different aspects of TCM and understand how TCM can play a role in today's healthcare systems. The programme will commence with 2 weeks of TCM fundamental training in EYSA with clinical attachments to Eu Yan Sang TCM Clinics for students to observe how TCM is being regulated and practised in Singapore.

The subsequent 2 weeks in SHUTCM will allow students to further develop their understanding through clinical observations in an integrative hospital affiliated to SHUTCM where TCM is practised alongside with western medicine. Students will also have the opportunity to accompany renowned TCM physicians on their hospital ward rounds. Throughout the 4-week programme, students will be under the guidance of highly experienced TCM physicians in Singapore and Shanghai, China.
